Steel Toecap Protection • AN1-EN12568

Stainless steel toe cap can reach 200 joules from falling or rolling objects. It is stronger than iron toe cap.

Steel Midsole Plate Protection • AN1-EN12568

Steel midsole plate, is zero-penetration resistant. It can resist 1100 newtons nail puncture from sharp objects. It is stronger and more flexible than normal iron plate.

Water Resistant PVC • CE EN ISO 20345:2011

High quality PVC material is water resistant performance. The upper is soft and comfortable, with breathable fabric lining. The upper tear strength is more than 60 newtons, to resist hard-work wearing.

Heavy Duty PVC Outsole • CE EN ISO 20345:2011

The outsole is made with PVC material, plus 5-10% nitrile. The outsole can pass both SRA & SRB test for slip resistant. High density PVC outsole is designed as EN ISO 20347 standard for abrasion resistant.

SAFETOE Standard Package Instruction (Average 42# for Reference)

Boots Weight : 1.5~1.6 KGS /Pair	Carton Weight : 16-17 KGS /Carton
1 Pair / Polybag, 10 Pairs / Carton	Carton Dimension : 50×30×50CM

User Instructions:

- 1.) RECOMMENDED TO USE : Construction, Chemical, Food Industry, Catering, Cleaning, Farm & Garden, Food Storage etc.
- 2.) LIMITATION TO USE: It is very important that footwear selected must be suitable for the right workplaces. The protection against risks or hazards which are not mentioned in this document is not warranted.
- 3.) FITTING & SIZE: All footwear are marked with standard size on package. Some are with different size comparison, such as EU size, UK size, US size etc. Please wear footwear in a suitable size. Footwear which are too loose or too tight may not provide optimum level of protection.
- 4.) STORAGE: Keep the footwear in its original packaging, under ordinary temperature, non-humidity conditions and in clean, covered and ventilated premises.
- 5.) CLEANING: Clean footwear regularly by high quality cleaning treatments recommended as suitable for the purpose. Don't use caustic or corrosive cleaning agents.
